

**Waterborne**

**Product name**

**BURNOCK WE-322**

**Description**

BURNOCK WE-322 is a waterborne OH functional acrylic emulsion to use in combination with polyisocyanates for 2K polyurethane coatings. BURNOCK WE-322 has excellent adhesion to plastics and alcohol resistance. It is recommended for consumer electronics.

**Applications**

Consumer electronics.

**Key features**

Adhesion to plastic substrates like ABS, PC and ABS/PC.

**Characteristics**

|                                    | <b>BURNOCK WE-322</b> |
|------------------------------------|-----------------------|
| <b>Appearance</b>                  | Milky white liquid    |
| <b>Solids content, weight %</b>    | 44.0 - 46.0           |
| <b>Viscosity, mPa s 25°C</b>       | 100 - 1000            |
| <b>pH</b>                          | 8.5 - 9.5             |
| <b>OH value on solids, mgKOH/g</b> | 20 (estimated value)  |
| <b>Solvent</b>                     | Water                 |

**Storage**

Store in a cool, dry, and well-ventilated place at temperatures below 40°C.

**Safe handling note**

Refer to SDS for BURNOCK WE-322.
