DIC Corporation

DIC Group to Participate in CHINA COAT 2017, one of world leading trade shows for the coatings industry in Shanghai

—Booth will feature a wide range of environment-friendly products for multiple applications—

Tokyo, Japan—DIC Corporation announced today that it will participate, together with wholly owned local subsidiary DIC (Shanghai) Co., Ltd., in CHINA COAT 2017, one of world leading trade shows for the coatings industry, which will be held in Shanghai from November 15–17, 2017, in Shanghai. Established in 1996, CHINA COAT boasts a long history. CHINA COAT 2017, the 22nd edition of the show, will feature 1,000-plus exhibitors from more than 30 countries and territories, making it one of the industry’s most important events.

The DIC Group introduce environment-friendly waterborne, low-volatile organic chemical (VOC) and ultraviolet (UV) curable resins, which are gaining attention as attractive choices with benefits that include reducing the impact of coating processes on both the environment and the health of workers.
