DIC Corporation

DIC Group to participate in Chinaplas 2016, the 30th International Exhibition on Plastics and Rubber Industries

DIC announced today that it will participate, together with wholly owned subsidiary DIC (Shanghai) Co., Ltd., in Chinaplas 2016, the 30th International Exhibition on Plastics and Rubber Industries, which will be held in Shanghai. The exhibition, which in 2015 welcomed 3,000-plus exhibiting companies and more than 120,000 visitors, is Asia's top plastics and rubber trade fair.

The DIC booth at Chinaplas 2016 will showcase engineering plastics used in automotive, electrical and electronics components, as well as decorative films used in vehicle interiors.

Chinaplas 2016

Dates: April 25–28, 2016 9:30-17:30

Venue: Shanghai New International Expo Centre, Pudong, Shanghai, PRC

DIC booth: Hall N3, No. E01

Website: <http://www.chinaplasonline.com/>

Sensor component

Outline of products to be exhibited at the DIC booth

Engineering plastics

Polyphenylene sulfide (PPS) compounds, which boast outstanding heat and chemical resistance

Decorative films

Aquatransa water transfer printing films, used to transfer decorative patterns onto various surfaces

Surface patterned using decorative film
