DIC Corporation

DIC Group to Participate in CHINA COAT 2019, One of the World's Leading Coatings Industry Trade Shows, in Shanghai

—Booth will feature high-grade coating resins and pigments for a wide range of applications—

Tokyo, Japan– DIC Corporation announced today that it will participate in CHINACOAT 2019, one of the world's leading coatings industry trade shows, which will be held from November 18–20, 2019, in Shanghai. The DIC Group's booth will feature products from the DIC Group coating resins and pigments businesses, the latter of which includes offerings from wholly owned subsidiary Sun Chemical Corporation. The coatings resins display will focus on appealing to new customers by proposing solutions that meet needs worldwide for environment-friendly products and products for applications such as mobility-related and housing materials.
