DIC Group to Participate in Paint India 2016, One of India's Largest Exhibitions of Coatings and Related Materials

—Capitalizing on Opportunities in the Growing Indian Market—

Tokyo, Japan—DIC Corporation announced today that it will participate, together with wholly owned subsidiaries Sun Chemical Corporation and DIC Asia Pacific Pte Ltd in Paint India 2016, which will take place from January 21–23, 2016, in Mumbai. Inaugurated in 1993, the event is one of India's premier forums for companies to disseminate and exchange information on coatings and raw materials used therein.

The DIC Group's Paint India 2016 booth will showcase a wide range of coatings and related products, with a focus on polymers and pigments. The booth will be organized by application, with sections focusing on automobiles and motorcycles, electrical appliances and construction, among others.

In addition to acrylic resins, epoxy resins, polyester resins and others essential to the production of coatings, polymers on display will include waterborne resins, which are attracting increased attention as an environment-friendly choice. Pigments shown will include aluminum and other metallic effect pigments, high-performance pigments for various uses, and pigments suited to use in plastic coatings for automotive interiors and highly durable coatings for building.

Outline of DIC Group products to be exhibited

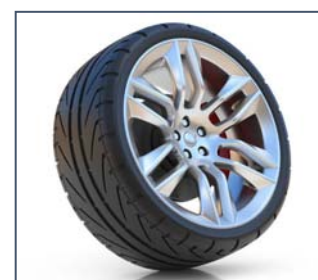

Polymers

Solventborne acrylic resin	<i>ACRYDIC</i>
Waterborne acrylic resin	<i>WATERSOL</i>
Waterborne epoxy ester resin	<i>WATERSOL</i>
Solventborne epoxy resin	<i>EPICLON</i>
Waterborne epoxy resin	<i>EPICLON</i>
Solventborne polyester resin	<i>BECKOLITE</i>

Pigments

Organic High Performance Pigments	<i>Quindo / Perrindo / Fanchon / Fastogen</i>
Aluminum pigments	<i>Benda-Lutz</i>
Micas	<i>SunMICA</i>
Pigment Preparations	<i>Predisol / Sunsperse</i>
