

# TECHNICAL INFORMATION

Excellent Adhesion PET Film Based Double Coated Adhesive Tape

**DAITAC #8616ER-80**

## Construction

## Characteristics

- ◆ Excellent adhesion and repulsion resistance.
- ◆ Excellent adhesion to polyolefin plastic, rubber materials, thermoplastic elastomers and so on.

\*Caution: There is a possibility that adhesion of this tape decrease by migrated substances from rubber. Please evaluate practical use appropriately to confirm this adhesive tape suits your usage.

## Applications

- ◆ For bonding various rubber parts for cushion, grip and so on, used in the electric equipment.

## Properties

		Unit	#8616ER-80
<b>Tape thickness</b>		[mm]	<b>0.08</b>
<b>Peel strength</b>	SUS (hairline)	[N/20mm]	<b>18.0</b>
	ABS		<b>21.5</b>
	PP		<b>13.0</b>
	CR Rubber		<b>7.0</b>
	EPDM Rubber		<b>8.0</b>
<b>Holding power</b>	40°C 500g/4cm <sup>2</sup>	[hour]	<b>24&lt;</b>

## Size

Maximum width is 1060mm. Standard length is 50m.
