

# TECHNICAL INFORMATION

*Very thin double coated adhesive tape*

## DITAC TN06AIR

### Construction

**Remark) Out side: bonding for graphite sheet. Inner/core side: bonding for adherend.**

### Characteristic

- *Very thin! Tape thickness is 6  $\mu$ m.*
- *Good die-cutting.*      • *Good workability.*
- *Good air releasing property*

### Application

- *For attaching thin sheet for mobile electronic equipment.*
- *For attaching graphite sheet.*
- *For attaching magnetic sheet*

### Property

		Units	TN06AIR
Tape thickness	—	$\mu$ m	6
Adhesion *Out side Conform to JIS Z0237	SUS (hairline)	N/20mm	3.0
Adhesion *Inner/core side Conform to JIS Z0237	SUS (hairline)	N/20mm	2.5
Air releasing property DIC Method	—	—	<i>Excellent</i>

*Please consult with sales staff about tape size.*
