DIC Corporation

DIC to participate in Chinaplas 2019, the 33rd International Exhibition on Plastics and Rubber Industries

Tokyo, Japan—DIC Corporation announced today that it will participate, together with wholly owned subsidiary DIC (Guangzhou) Co., Ltd., in Chinaplas 2019, the 33rd International Exhibition on Plastics and Rubber Industries, which will be held in Guangzhou in May 2019. The exhibition, which in 2018 welcomed about 4,000 exhibiting companies and more than 180,000 visitors, has been held annually for more than three decades and is Asia's top plastics and rubber trade fair.

Artist's conception of DIC's booth at Chinaplas 2019

The DIC Group booth at Chinaplas 2019 will showcase "DIC.PPS", PPS compounds that boast the world's top market share. These products are kinds of super-engineering plastics widely used as a substitute for metals in automotive materials, electric and electronic parts, and housing equipment. In recent years, the widespread use of eco-friendly cars has driven replacement of metal parts intended for weight reduction, and the adoption of this product has contributed significantly to the improvement of fuel efficiency.

Chinaplas 2019

Dates/times: May 21–14, 2019 9:30–17:30

Venue: China Import & Export Fair Complex,
Pazhou, Guangzhou, PRC

DIC booth: Zone B Hall 12.2
CHEMICALS & RAW MATERIALS ZONE D31
